

## FOREA

Fedo GmbH was founded in 2011 and specializes in the export of remaining stock in the field of household chemicals and hygiene products from the best manufacturers in Germany.

In 2020 we started the production of our own brands Forea, Emaldent and Erikol. In doing so, we have adhered to the most modern formulas. Our goal is the constant pursuit of ideal, quality and beauty.

We understand "Made in Germany" as a promise of quality.

As a medium-sized company, we have the advantage of being able to react flexibly & quickly to the progress, trends and wishes of our customers.

The proximity to the customer, but also to nature is always in the foreground. Therefore, we not only focus on sustainability in products and ingredients, but also make sure that the entire manufacturing process is as sustainable as possible. Many of our products carry the European Ecolabel and are dermatologically tested. When it comes to quality and price, we are confident that we will meet the expectations of the most demanding customers. We prefer long-term relationships with our customers and look forward to closing new deals.

We welcome agents and distributors.

If you have any questions, please do not hesitate to contact us.

Sincerely

Fedo GmbH

\*Silicones in shampoo deposit on the individual hairs. This forms a dense silicone layer around the hair strand, which on the one hand prevents moisture and nourishing fats from reaching the hair and on the other hand weighs it down. The hair then lies flat on the head and due to the lack of care of the outer corneous layer, it becomes brittle and consequently loses its natural shine.
