

A2

Pulse Oximeter

Product features

1. Lightweight design, easy to carry
2. Digital large screen display makes reading easier
3. Double layer shading design reduces the influence of ambient light
4. Key rotation, two-way viewing angle switching display
5. Low battery prompt, intelligent power saving, automatic shutdown
6. Flashing alarm

technical parameter

Blood oxygen saturation (SpO₂)

Measurement range: 35% ~ 99%

Measurement accuracy: 90% - 99% ± 1%; 70% - 89% ± 2%;

35% - 69%, accuracy undefined

Alarm defaults: < 85%

Pulse rate (PR)

Measurement range: 30bpm ~ 240bpm

resolution: ± 1bpm measurement

Alarm defaults: < 50bpm or > 120bpm

SpO₂ value and pulse rate refresh rate: 1 second

Automatic shutdown: automatic shutdown after 8s when there is no signal access

Use period: ten years

Product size (mm): 64.5 (L) × 37.5 (W) × 35 (H)

Scope of application

For hospitals and families to monitor the patient's pulse oxygen saturation and pulse rate
