About us

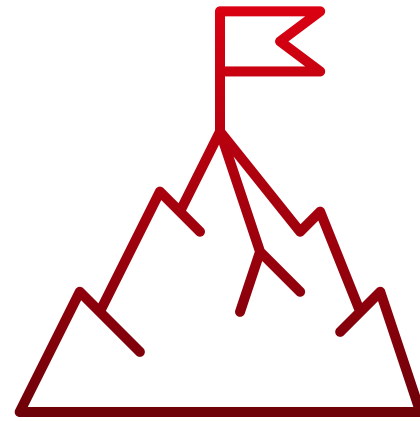

Gamma Brands is engaged with the production of its own brands of small appliances and cooking utensils, as well as in the distribution of established European and Turkish brands of household goods. In our quest to respond to market dynamics, we strive to constantly expand our product portfolio with innovative solutions for home and kitchen.

We believe in the balance between price, quality and design as a key to a successful realisation of our products.

Our model

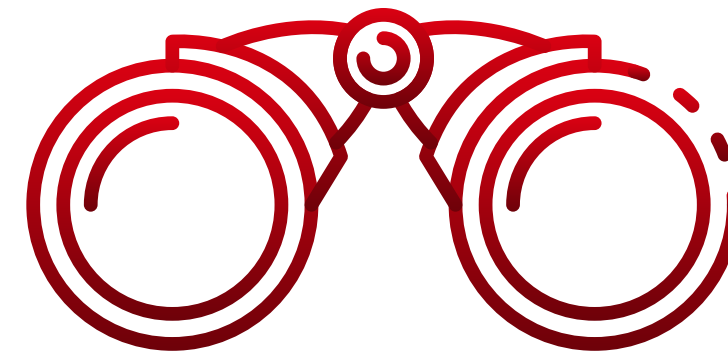

Our mission

Mission

The mission of Gamma Brands is to create its own brands quality and innovative products for the home and kitchen, striving each brand to have its own identity and unique design.

Vision

Our client is at the center of our business. We believe that innovation, design and quality are the core for long-term success.

Goals

Based on our shared values as a team and a strong in-house culture, our long-term goal is for our own brands to become consumer's preferred choice for home and kitchen.
